

Dear Parents, Teachers, and PEAKers,

We had a blast last week hearing from tourism professional Pam Gosink. Pam's entertaining and engaging virtual talks gave students an inside view of global tourism, and really opened our eyes to the many facets of this huge global industry. Thank you, Pam!

We're also rolling along in the student partner groups' research. Students chose two of the 18 Areas of Humans that they are interested in to cover in their final projects, and two more areas to share with their partners (for a total of 6 between the two kids). We'll be discussing this research further and working on rough draft layouts of the final presentations in PowerPoint.

To add some student art into our displays, students will work this week on artistic versions of their chosen nations' flags. We'll be adding images of these art projects onto the student's final projects.

This Week's Activities: October 19th - 23rd

Research

18 Areas of Humans: Students will complete their 18 Areas research (2 per student and 2 to share with partners) and cite their sources for use on our final project displays.

Creativity

Flying Artistic Flags: Students have looked at the flags of their nations. This week, we'll begin creating artistic versions of these flags to display on their final projects.

Creativity

Layout Design: Student partner pairs will design their PowerPoint layout rough drafts and share in class for revision and review.

Grab your passports!

Ms. B

PEAK Calendar

Unit 1: Oct. - Nov. 2020
